

Michelle Lee Grant
Senior Campaign Finance Analyst
Reports Analysis Division

In response to your letter dated July 17 on C00431619, we would like to clarify the following items:

Regarding the identification of all individuals contributing in excess of \$200-Our original solicitation does include a clear request for the contributor information pursuant to federal law; we have instituted a best efforts procedure whereby any contribution received that does not have complete information will receive a follow-up; follow-ups on all individuals with currently missing information are approached again with no solicitation, and including an addressed return envelope. This is an ongoing process and we receive these updates continually.

This report has been amended with our best effort at clearly showing all expenditures, especially those outlined in your letter. We reviewed those that you felt were unclear, and will attempt to make administrative changes in an attempt to avoid confusion or ambiguity in the future.

In addition, appropriate memo entries have been entered to clarify and properly report the expenditures.

We believe that we have addressed or are in the process of addressing all the concerns you expressed in your letter.

Please let us know if you require further information.

Sincerely,

Steven J. Durham, Treasurer
Tancredo for President
